It is impossible to measure life according to "average" when you're a woman of color. It's not about how many inches you've lost or how many pounds you've gained, and when they do, it's not about how you feel about the number. As my client, the Queen, has shown me, it's not about how many pounds you've gained or lost, and perhaps a little of those numbers should be left in the past, along with the old-fashioned, narrow, and out-of-date standards of beauty and culture.
